Tech Specs

	Smudge Resistance	Scratch Resistance	Optical Density	Ink Melting Point
410M Performance Wax / Resin	A	A	> 1.20	67° C (153° F)

Performance Characteristics:

- Superior edge definition and print quality for crisp barcodes, text and images
- High resolution printing at speeds up to 10 IPS (inches / second)
- Prints on a variety of substrates from papers to films
- Dissipates static for easy handling and extended printhead life
- Smudge and scratch resistance

Recommended Substrates:

Coated paper label and tag stocks, gloss paper, flood-coated paper, synthetic papers, UV varnished labels, polyethylene, polypropylene and polyolefin

Recommended Applications:

RFID

General

Logistics

Retail

Shipping

Signage

Flexible Packaging

Shelf

Medical Devices

Automotive

Outdoor
