

Material Specification Sheet**Product:**

M-124

Description:

A 2-side opaque mineral re-inforced polypropylene material with a matte finish. It is moisture, chemical and tear resistant while providing superior printability. Material complies with FDA for direct food contact, is outdoor durable, recyclable, and UV stable for 1 year. Material can be thermal transfer, flexographic, and letterpress printed.

Recommended Applications:

This material is recommended for cards, tags, banners, charts, load and nursery tags, tree and steel tags and product identification and lumber tags. Material can be scored, perforated, die cut and stitched.

Not recommended for Jetrion printing.
