

### Material Specification Sheet

Product:  
M-160

Description:

A heavyweight thermal transfer sheet designed for tag and ticket applications with good dimensional stability for flatness and a smooth surface combined with coating chemistry that enhances thermal transfer print quality and barcode durability.

Recommended Applications:

For applications including thermal transfer print tag applications, event tickets, transportation tickets and garment hang tags

Facestock:

A heavyweight thermal transfer sheet designed for tag and ticket applications with reverse side coatings which help to create a flat and balanced sheet, benefiting printability and holdout.
