
Material Specification Sheet**Product:**

M-605

Recommended Applications:

This material is recommended for a variety of durable and long-term environmental exposure applications as well as conversion into permanent care labels. Meets AATCC IVA wash test requirements.

Facestock:

A thermal transfer woven polyester facestock with an extra smooth surface on one side for thermal transfer printing. The opposite side is suitable for lamination or heat seal adhesive coating. Designed to remain stable at elevated temps (320°F to 340°F for < 20 min.)

		<u>Value</u>	<u>Units</u>
Total Weight		2.45	oz/yd ²
Thickness:		3.2	mil
Stiffness:	MD	12	mg
	CD	9	mg
Tear:	MD	310	grams
	CD	322	grams
Opacity:		93	%

Shelf Life:

One year, under standard storage and humidity conditions

PRODUCT DISCLAIMER

All labels and label material constructions are sold with the understanding that the purchaser has independently determined the suitability of each product for the application for which it is purchased. The seller disclaims any implied warranty of fitness of a product for a particular purpose. All materials should be tested thoroughly by the purchaser under end-user conditions to ensure they meet the requirements of a specific application.
