

# The Quick Guide to Choosing the **Best Extended-Range Scanner** For Your Warehouse

## 7 Traits your scanner must have to thrive in your warehouse.

### 1 PRACTICALLY INDESTRUCTIBLE

Can they withstand extremes from getting soaked to getting repeatedly dropped?

### 2 NEARER, FARTHER RANGE

Can they capture barcodes from a hand's-length away to the highest shelf?

### 3 FAIL-PROOF SCANNING

Can they read shrink-wrapped, dirty, torn, faded, wet, or curved barcodes in a split second?

### 4 PAINLESS MANAGEMENT

Are they an IT headache or do they alleviate them?

### 5 ENDURING POWER

Does their battery last throughout an entire day? Can you see how much capacity they have?

### 6 AROUND-THE-CLOCK CONNECTIVITY

Do they leave you vulnerable to frequent BT disconnects?

### 7 CUT THE CORD

Do they give you the freedom to choose between a corded or cordless version?

Speed up and simplify your warehouse by  
**upgrading to Zebra's scanners**

When it comes to your warehouse, there's no room for half-measures. Get the **farthest, fastest, nearest** performance from Zebra's extended range of imagers. Whether you need 1D, 2D, cordless, corded, our line of 14 models can capture all your needs.

**Go to Greater Scanning Lengths with Zebra's Extended Ultra-Rugged Family**

# Zebra has **2 options** for you.

ZEBRA'S NEW 1D EXTENDED-RANGE  
LI3608-ER CORDED / LI3678-ER CORDLESS

**26%** Farther Scanning—  
Reads from 2 in. to 56 ft.

**23%** More Durable

**50%** More Battery Capacity  
Than Competition—50,000  
More Scans Per Charge

**4.0** Bluetooth® 4.0 & Wi-Fi™  
Friendly Mode

**1st**

- Sealed Cradle
- IP67/65 Waterproof Scanner
- On-Board Battery Gauge

ZEBRA'S 2D EXTENDED-RANGE  
DS3608-ER CORDED / DS3678-ER CORDLESS

**T** **60%** closer and **35%** farther than  
similar models—reads from 3 in. to 70 ft.

**W** Industry's **easiest** management tools

**B** **2x** the battery power—up to **70K**  
scans per charge

**B** Captures up to **20** barcodes with one  
trigger pull

**W** **Only device to offer:**

- Bluetooth® 4.0 & Wi-Fi™ Friendly Mode
- 8 ft. /2.4 m drop spec
- Double sealing: IP65 and IP67
- Freezer compliant cables and rugged IP65 cradle
