

THE BIG WIRELESS CHALLENGE FOR SMALLER BUSINESSES

THE PRESSURE: MOBILITY IS A MUST

The world has gone mobile, untethering itself from desks and wired devices. Now, employees, customers, and guests walking through your doors expect always available, always secure, wireless connectivity.

80% of employees use personal devices at work¹

by 2020

4.3 mobile devices per person by 2020³

50% of businesses will not supply employee computing devices²

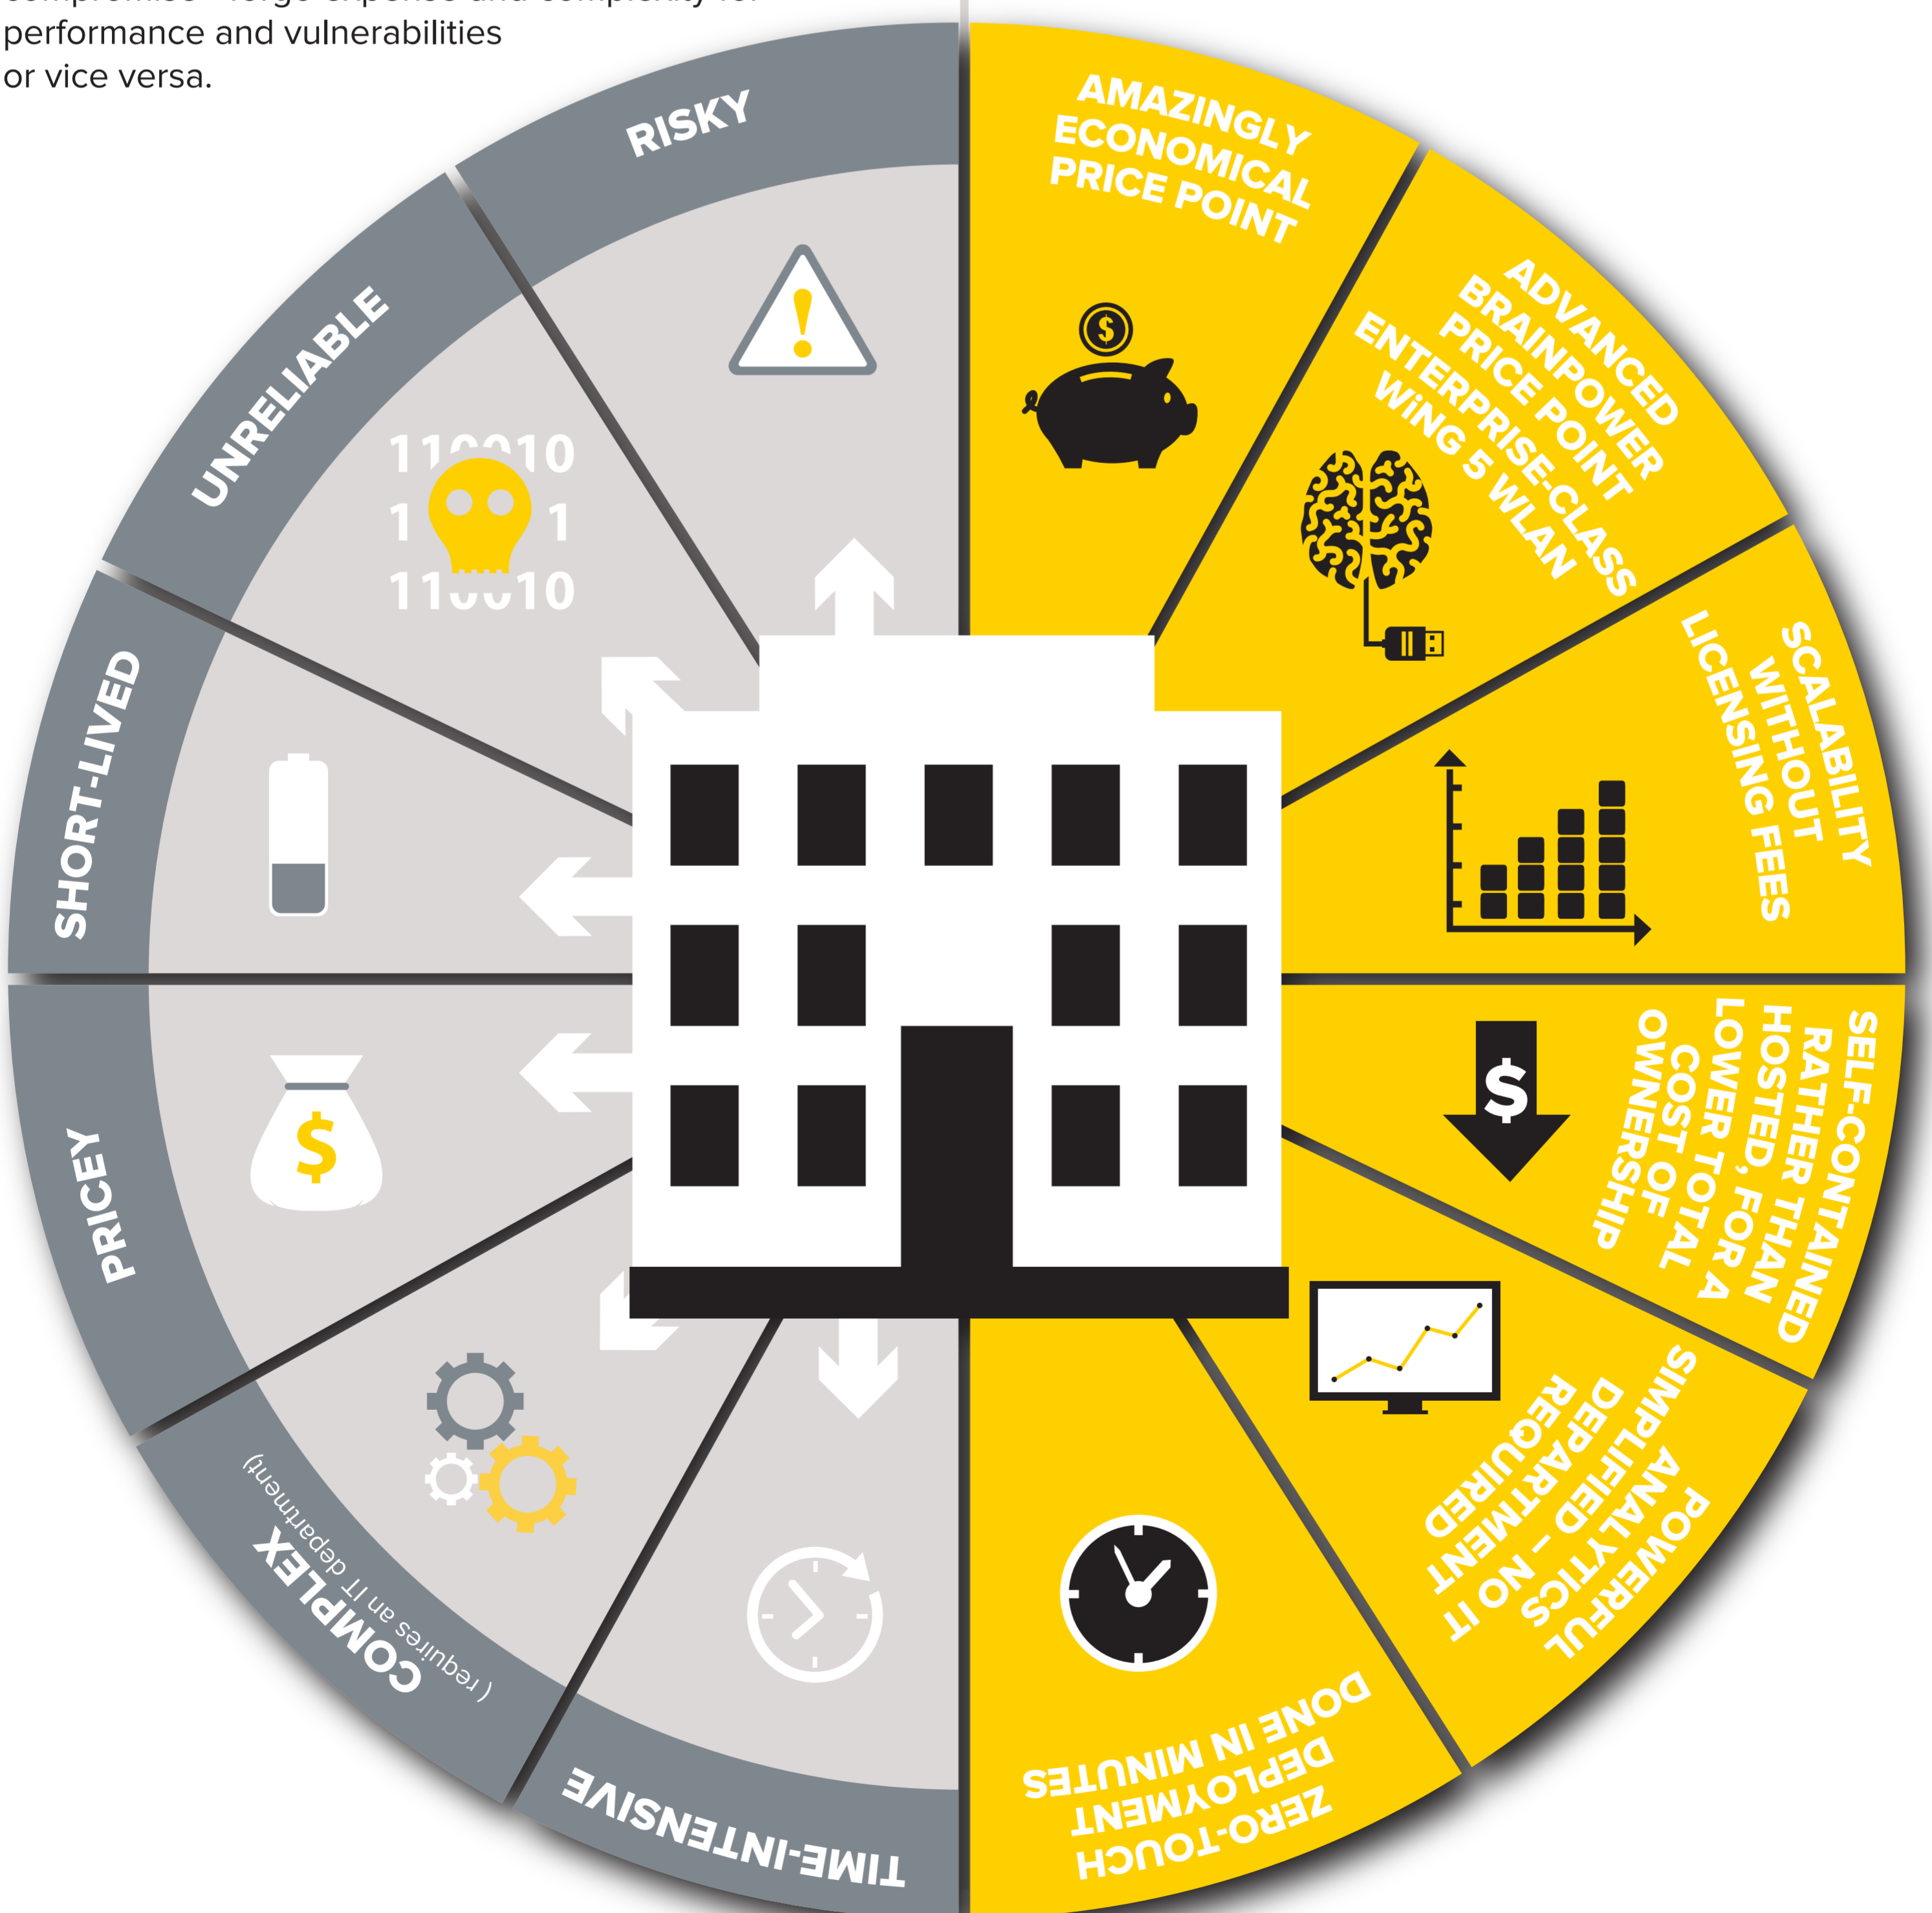

71% of all mobile communications flow over Wi-Fi⁴

THE CHALLENGE: CONNECTIVITY CAUSES A COMPROMISE

In the past, smaller businesses were forced to compromise—forgo expense and complexity for performance and vulnerabilities or vice versa.

THE SOLUTION: Zebra WiNG EXPRESS

Why settle? WiNG Express gives your midsize business the high WLAN performance, and hardened security of a Fortune 500 company – at a fraction of the cost and complexity.
